Summary													
Amount (acre feet)													
Delta Export	0	Water pumped at Delta for delivery to Metropolitan Water District of Southern California											
CVP Storage	45,671	Water stored at Shasta for future release to Metropolitan WDSC											
SWP Storage ⁴	35,767	Water stored at Oroville for Metropolitan WDSC											
Losses	43,007	Water that could not be pumped at the Delta or stored in CVP or SWP facilities											

Numbers may not add exactly due to rounding

¹DWR and USBR will credit an additional 709 acre feet of water, split equally between each project, to alleviate a misunderstanding between the agencies and Glen Colusa Irrigation District for a total amount of 38,680 acre feet.

²Treated as accretion for accounting.

³Feather River Settlement Contractors credited for 6 days SWP storage in June.

⁴CRCP, State Water Project stored water, spilled from Oroville in March 2004.
